3 kg (hose inclusive)

packing

1 piece per box

air pressure

6,3 till 10 bar

rotational speed5,000 revolutions
per minute**air consumption**

254 L / min at 6.3 bar

The Brush Black Booster is equipped with a new high-tech motor which guarantees less down time.

CHARACTERISTICS

	Ultra-reliable, high-tech motor bearings assembly.		Easy removable brush.
	Multi-directional air inlet 360°: - better stability on horizontal surfaces - better flexibility inside a vehicle		Air pressure regulator

OPERATION

Delivered with two hoses which are connected to each other. One part of the hose gets connected to the compressed air, the other part goes into the barrel with chemicals which is preferably positioned next to the compressor.

ADVANTAGES

- No need to constantly refill the bottle as is the case with the traditional guns.
- Better flexibility inside the vehicle because of its compactness.

FIELDS OF APPLICATION

Very efficient for removing dirt, dust, fat etc. on places or materials that are difficult to clean:

- interior of cars, motorcycles, boats
- carpets (textile and synthetics)
- beneath car hood and gate stops
- vent holes and airco
- around car and back seats
- glove and storage compartments
- dashboard
- around gear stick
- wheel rims
